PROFESSIONAL SUMMARY

Motivated B.Tech Information Technology student at Coimbatore Institute of Technology with hands-on experience in mobile and web application development. Passionate about solving real-world problems through technology — from empowering farmers with AI-driven insights to detecting financial fraud using machine learning. Hackathon achiever with strong teamwork and problem-solving skills.

EDUCATION

B.Tech in Information Technology — Coimbatore Institute of Technology *Expected 2027*

CGPA: 8.79

Higher Secondary (Class XII) — SBOA Matriculation & Higher Secondary School, Coimbatore *Completed*

Score: 91.5%

EXPERIENCE

Internship Student — Boredom Technologies LLP *June 2025*

- Developed real-time web applications using HTML, CSS, and JavaScript.
- Managed source code changes and collaboration workflows via GitHub (version control).
- Deployed and tested production websites on Vercel using Next.js framework.

PROJECTS

Mobile Application for Farmers' Betterment and Education

Tech Stack: FlutterFlow, REST APIs, AI/ML Integration

- Designed and built a comprehensive mobile app to empower farmers with digital tools and real-time agricultural intelligence.
- Integrated AI-based crop disease detection to identify plant health issues from photos using machine learning models.
- Implemented live market price updates to help farmers make informed selling decisions.
- Included educational video modules for crop management, fertilizer usage, and sustainable farming practices.
- 3rd Place in Coimbatore Institute of Technology Hackathon for this project.**Secured

Money Laundering Detection System

Tech Stack: Python, Machine Learning, Data Analysis

- Developed a machine learning-based system to detect suspicious financial transactions and potential money laundering activities.
- Analyzed transaction patterns and behavioral anomalies to flag high-risk financial operations with accuracy.
- Applied data preprocessing, feature engineering, and classification algorithms to build a robust fraud detection pipeline.
- Designed the system to assist financial institutions in regulatory compliance and financial crime prevention.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, Python, HTML, CSS, Next.js, FlutterFlow

Tools & Platforms: GitHub, Vercel, REST APIs, VS Code

Concepts: Machine Learning, AI Integration, Web Development, Mobile App Development

Soft Skills: Leadership, Team Collaboration, Problem Solving, Project Coordination, Adaptability

CERTIFICATIONS & ACHIEVEMENTS

- Secured 3rd place in the Hackathon conducted at Coimbatore Institute of Technology.
- Building Quantum Intuition with IBM Qiskit (IUCEE) | Nov–Dec 2025**Certificate of Completion —
6 Webinars with Assignments and Project | Faculty: Dr. Shalini Gopalakrishnan, Entrepreneur, USA | ID: 25C20995

LANGUAGES

Tamil: Native Proficiency
